

## Environmental Policy

### Scope:

***“Design, Manufacture and Supply of Plastic Mouldings, Associated Tool Making, Plus Controlled Environment Moulding and Assembly Operations”***

Within the constraints of the above scope it is the Policy of this organisation to:-

- Establish sound environmental performance through the implementation of environmental management systems and training all our staff on company policies, objectives and targets as appropriate
- Meet all relevant legislative, regulatory and environmental codes of practice
- Foster the commitment of all management and staff to continually improve the environmental performance of the company and their domestic activities
- Ensure that staff consider all environmental aspects and the potential impact of their work to provide a platform for discussion and suggestion for environmental concerns and initiatives
- Develop objectives that target environmental improvements and monitor our performance through regular reviews
- Encourage suppliers and contractors to recognise their environmental responsibilities and make it part of the way we do business together
- Consider environmental issues within the organisation strategic decision making process
- Continually improve business performance towards the environment and prevent pollution
- Cooperate with the local community, government, regulatory bodies and interested parties with the shared vision of being a good and trusted neighbour
- Promote waste minimization by recycling and /or finding other uses for redundant and waste product whenever economically viable and environmentally sound to do so

The requirements of this policy will be achieved by working in accordance with the requirements of ISO 14001 Environmental Management Systems.
